BOARD CERTIFIED SPECIALISTS

USE OF THIS BOOK

The American Academy of Environmental Engineers and Scientists® currently provides specialty certification in the following specialties:

Environmental Engineering

Air Pollution Control
Environmental Sustainability
General Environmental Engineering
Hazardous Waste Management and Site Remediation
Industrial Hygiene
Radiation Protection
Solid Waste Management
Water Supply and Wastewater

Environmental Science

Air Resources
Environmental Biology
Environmental Chemistry
Environmental Microbiology
Environmental Toxicology
Groundwater and the Subsurface Environment
Hazardous Waste Management and Site Remediation
Solid Waste Management
Surface Water Resources
Sustainability Science

There is an additional specialty listed in the Roster of Board Certified Environmental Engineers (BCEE):

Sanitary Engineer

The Sanitary Engineer specialty was used by the Academy between 1955 and 1974 to recognize the general practice of sanitary engineering without classification as to specialty. BCEEs issued a certification for Sanitary Engineer during that period may continue to use that certification as long as they remain members in good standing.

Persons seeking environmental engineering specialists for employment are encouraged to consult the Roster of Board Certified Environmental Engineers or the Roster of Board Certified Environmental Engineering Members contained in this book as a starting point. However, it is the responsibility of each user to determine if a Board Certified Environmental Engineer or Board Certified Environmental Engineering Member is qualified to perform the particular service or function sought.

Persons seeking environmental science specialists for employment are encouraged to consult the Roster of Board Certified Environmental Scientists contained in this book as a starting point. However, it is the responsibility of each user to determine if a Board Certified Environmental Scientist is qualified to perform the particular service or function sought.

Those who have been conferred the title, Board Certified Environmental Engineer by the Academy are licensed, Professional Engineers, and therefore, are legally empowered by one or more states to practice engineering and to use the title, “Professional Engineer” or “P.E.” Further, to denote their status as a Board Certified Environmental Engineer, they are authorized by the Academy to use the title, “Board Certified Environmental Engineer (BCEE)”. Those whose Certification Status is listed as “Active” have fulfilled the Academy’s requirement for annual continuing professional development as detailed within this book.

Board Certified Environmental Engineering Members have been conferred the title, “Board Certified Environmental Engineering Member (BCEEM)” by the Academy. Board Certified Environmental Engineering Members meet all requirements of the BCEE but do not possess a P.E. license.

Board Certified Environmental Scientists have been conferred the title, “Board Certified Environmental Scientist (BCES)” by the Academy.

DEFINITIONS OF ENVIRONMENTAL ENGINEERING AND ENVIRONMENTAL SCIENCE

Environmental Engineering

The professional discipline of **environmental engineering** is defined as the application of engineering principles to improve and maintain the environment for the protection of human health, for the protection of nature's beneficial ecosystems, and for environment-related enhancement of the quality of human life.

Environmental Science

The professional discipline of **environmental science** is defined as the application of scientific principles to improve and maintain the environment for the protection of human health for the protection of nature's beneficial ecosystems, and environment-related enhancement of the quality of human life.

Definitions of environmental engineering and environmental science as adopted by the Board of Trustees of the American Academy of Environmental Engineers and Scientists.

PREFACE

The complexities of modern life with its ever-increasing reliance on sophisticated technology and confrontations with nature have created a need for experts of all types. The challenge facing those who need those experts is to find the right one.

This edition of *Who's Who in Environmental Engineering and Science*® presents the names of men and women who have voluntarily proven that they have special knowledge in environmental engineering or environmental science. Those individuals have been awarded the title, "Board Certified Environmental Engineer" or "BCEE", "Board Certified Environmental Engineering Member" or "BCEEM", or "Board Certified Environmental Scientist" or "BCES" by the Academy to testify that they satisfy a set of strict and professional requirements in their respective areas.

Board Certified Environmental Engineer

Each Board Certified Environmental Engineer (BCEE) is tested and interviewed by a panel of peers to ascertain his or her competency in specific environmental engineering specialties. Backed by a professional background including a minimum of a Baccalaureate or higher degree in environmental engineering (or related engineering degree acceptable to the American Academy of Environmental Engineering Certification Board--AAEECB) from a college or university of recognized standing, an engineering license, eight years experience (four of those years in responsible charge) and the acceptance by the Academy, each Board Certified Environmental Engineer is fully qualified to practice his or her skills in one or more of these areas:

- Air Pollution Control
- Environmental Sustainability
- General Environmental Engineering
- Hazardous Waste Management and Site Remediation
- Industrial Hygiene
- Radiation Protection
- Sanitary Engineering
- Solid Waste Management
- Water Supply and Wastewater

Individually and collectively, Board Certified Environmental Engineers have accepted the responsibility of self-regulation for excellence, continuing professional development, and leadership in the practice of environmental engineering.

Board Certified Environmental Engineering Member

Each Board Certified Environmental Engineering Member (BCEEM) is certified through Eminence. Backed by a professional background including a minimum of a Baccalaureate or higher degree in environmental engineering (or related engineering degree acceptable to the American Academy of Environmental Engineers Certification Board--AAEECB) from a college or university of recognized standing, a minimum of 20 years' experience in academia, consulting, government, industry, or the military (10 of those years in a senior capacity), a position of leadership in their organization, a record of honors, awards, and scholarly publications, and acceptance by the Academy, each Board Certified Environmental Engineering Member is fully qualified to practice his or her skills in one or more of these areas:

- Air Pollution Control
- Environmental Sustainability

General Environmental Engineering
Hazardous Waste Management and
Site Remediation
Industrial Hygiene
Radiation Protection
Solid Waste Management
Water Supply and Wastewater

Board Certified Environmental Engineering Members do not possess a P.E. license.

Board Certified Environmental Scientist

Each Board Certified Environmental Scientist (BCES) is tested and interviewed by a panel of peers to ascertain his or her competency in specific environmental science specialties. Backed by a professional background including a minimum of a Baccalaureate or higher degree in environmental science (or related science degree acceptable to the American Academy of Environmental Scientists Certification Board--AAESCB) from a college or university of recognized standing, eight years experience (four in a supervisory capacity) and the acceptance by the Academy, each Board Certified Environmental Scientist is fully qualified to practice his or her skills in one or more of these areas:

Air Resources
Environmental Biology
Environmental Chemistry
Environmental Microbiology
Environmental Toxicology
Groundwater and the Subsurface
Environment
Hazardous Waste Management and
Site Remediation
Solid Waste Management
Surface Water Resources
Sustainability Science

The credibility each Board Certification is further enhanced by the Council

of Engineering and Scientific Specialty Boards (<https://www.cesb.org/>) accreditation of the Academy's specialty certification program.

AAEES Member

Academy Members (M.AEES) are those persons in the early phases of their environmental engineering or science careers who are on a professional development track leading to full specialty certification.

Student Member

A Student Member is one who is enrolled in an environmental (or similar) engineering or science program as a full-time student.

This latest edition of Who's Who in Environmental Engineering and Science carries on a tradition of commitment to excellence begun in 1955. The essence of that tradition is the Academy's continuing effort to identify those with special knowledge in environmental engineering and environmental science for the public benefit.

OBJECTIVES

Vision Statement

Leadership and excellence in environmental engineering and science

Mission

Promote continual improvement in environmental engineering and science education and practice.

Objectives

The Objectives of the Academy are to support the Mission by:

- Ensuring the quality of and creating pathways for future EES professionals.
- Providing continuing education for all EES professionals.
- Certifying advanced professionals; providing public recognition of outstanding individuals and practices.
- Harnessing the technical expertise of our members to advise decision-makers and the public on the use of EES to improve and maintain the environment.

HISTORY

The American Academy of Environmental Engineers® was founded in 1955 for the principal purpose of serving the public by improving the practice, elevating the standards, and advancing public recognition of environmental engineering through a program of specialty certification of qualified engineers.

The genesis of the Academy began in 1952 with a few dedicated professional sanitary engineers working in the public health and defense communities. Their concerns were addressed to the Committee for the Advancement of Sanitary Engineering of the American Society of Civil Engineers (ASCE). Subsequent events led to the formation of the Joint Committee for the Advancement of Sanitary Engineering, which was composed of the ASCE, American Public Health Association, American Society for Engineering Education, American Water Works Association, and the Water Pollution Control Federation (now the Water Environment Federation). With the sponsorship and support of those five organizations, the American Sanitary Engineering Intersociety Board was created in 1955.

The American Sanitary Engineering Intersociety Board, the predecessor of the Academy, was officially incorporated under the laws of the State of Delaware on October 21, 1955. So as not to compete with other associations or societies, it was provided that certified sanitary engineers would be identified as Diplomates (now called Board Certified Environmental Engineers) of the American Academy of Sanitary Engineers yet be free to retain their memberships in other societies. The Board was responsible for preparing an annual Roster of current Board Certified Environmental Engineers, listing the names of each and the specialty(ies),

recognized by the Board, in which they were certified. Other organizations joining as sponsors included the American Institute of Chemical Engineers in 1957 and the Air Pollution Control Association (now the Air & Waste Management Association) in 1962.

In 1966, the Articles of Incorporation were amended to change the name of the Board to the “Environmental Engineering Intersociety Board” (EEIB) and the name of the Roster from the “American Academy of Sanitary Engineers” to the “American Academy of Environmental Engineers” (AAEE). In 1967, the Board of Trustees changed the American Academy of Environmental Engineers from a Roster of certified engineers to an organization with its own rights, bylaws, and officers. This new organization was charged with working cooperatively with the EEIB in the advancement of all aspects of environmental engineering. The American Public Works Association joined as a sponsor of those organizations in 1969.

The AAEE and the EEIB merged into one organization in 1973. Since that time, the objectives of both predecessor organizations have been carried out by the American Academy of Environmental Engineers®. In 1976, the National Society of Professional Engineers became a sponsor of the Academy, followed by the Association of Environmental Engineering & Science Professors in 1977, the American Society of Mechanical Engineers in 1981, and the Solid Waste Association of North America in 1988.

In 2013, AAEE became the American Academy of Environmental Engineers and Scientists (AAEES) after launching a board certification program for environmental scientists.

ORGANIZATION

On September 17, 1973, the Articles of Incorporation of the original Corporation were amended under the laws of the State of Delaware at which time the “Environmental Engineering Intersociety Board” and the “American Academy of Environmental Engineers” were merged into one organization under the name of the “American Academy of Environmental Engineers” (AAEE)®.

On December 10, 2012, the Articles of Incorporation of the American Academy of Environmental Engineers were amended under the laws of the State of Delaware, and on January 1, 2013, the American Academy of Environmental Engineers changed its name to the American Academy of Environmental Engineers and Scientists (AAEES).

The Academy is a not-for-profit corporation, and no Trustee may receive compensation for service.

As now constituted, the Board of Trustees is composed of: one member nominated by each of the sponsoring societies, the Academy President, President-Elect, Vice President, Treasurer, and latest living Past President. In addition, there are six Trustees-at-Large.

Sponsoring Organizations of AAEES

- Air & Waste Management Association (A&WMA)

INTRODUCTION

In 1955, the American Academy of Environmental Engineers and Scientists® began the first engineering specialty certification program in this country. Modeled on the decades-old, successful practice in the medical profession, the program provides independent testimony to a licensed engineer's special capabilities in the profession of environmental engineering.

In 2005, the American Academy of Environmental Engineers and Scientists® began a separate specialty certification program for environmental engineering professionals who do not possess a professional engineering license.

In 2013, using the same model, the Academy added a separate new certification for environmental scientists, which provides independent testimony to an environmental scientist's special capabilities in the profession of environmental science.

Who's Who in Environmental Engineering and Science® provides those seeking qualified practitioners with a list of environmental engineers and scientists who have been certified by a board of their professional peers as having special capabilities in one or more areas of environmental engineering or environmental science practices. Generally, engineering licenses are issued by a State Board of Engineering Examiners without limitation on the fields of engineering in which a person may practice. The Academy's certification does not confer any legal rights or privileges. Rather, it assists the public in identifying the technical expertise of an environmental engineer or scientist.

Specialties Recognized

The Academy's definition of environmental engineering prescribed by its

Bylaws includes the following areas of specialization in which certificates are currently issued.

- Air Pollution Control
- Environmental Sustainability
- General Environmental Engineering
- Hazardous Waste Management and Site Remediation
- Industrial Hygiene
- Radiation Protection
- Solid Waste Management
- Water Supply & Wastewater Engineering

In addition, there is a separate designation, Sanitary Engineer, for the general practice of environmental engineering without distinction as to specialty. This classification of specialization was established when the Academy was founded. It was superseded by the specialties listed above in 1974, except for Hazardous Waste Management, which was added in 1986 and Environmental Sustainability, which was added in 2010. Persons certified as Sanitary Engineers may continue to retain that certification as long as they remain Board Certified Environmental Engineers in good standing.

The Academy's definition of environmental science prescribed by its Bylaws includes the following areas of specialization in which certificates are currently issued.

- Air Resources
- Environmental Biology
- Environmental Chemistry
- Environmental Microbiology
- Environmental Toxicology
- Groundwater and the Subsurface Environment

to provide the public with information
about specialty certification.

Program Accreditation

The Council of Engineering and Scientific Specialty Boards (CESB) has accredited the Academy's BCEE, BCEEM, and BCES specialty certification programs thereby providing recognition that the programs, which are described on the following pages, conform to CESB criteria for Professional Engineering Specialty Certification Programs.

- Accreditation of Board Certified Environmental Engineer (BCEE) was granted in February 1993 and is valid until December 31, 2026.
- Accreditation of the Board Certified Environmental Engineering Member (BCEEM) was granted in February 2005 and is valid until December 31, 2023.
- Accreditation of Board Certified Environmental Scientist (BCES) was granted in 2014 and is valid until December 31, 2024.

CESB is an independent, voluntary body composed of organizations providing specialty certification in engineering and related scientific fields, and other organizations with interests encompassing the entire engineering and science professions. Founded in 1990, CESB provides basic criteria and guidelines for the establishment and operation of certification programs in engineering and related technical areas and recognizes those certification boards that comply with its standards. It also acts to coordinate specialty certification programs, to resolve problems encountered by member boards, and

CERTIFICATION REQUIREMENTS - BOARD CERTIFIED ENVIRONMENTAL ENGINEER (BCEE)

The American Academy of Environmental Engineers and Scientists® certifies qualified licensed Professional Engineers recommended by peers in their field of specialty as Board Certified Environmental Engineers through certification procedures prescribed by the Academy's Bylaws.

Minimum Requirements

Each candidate for certification as a Board Certified Environmental Engineer is required to possess certain minimum qualifications.

All candidates shall:

- Be persons of good moral character and of high ethical integrity and professional standing, as determined by the American Academy of Environmental Engineers Certification Board (AAEECB).
- Possess a degree in environmental engineering or related engineering degree acceptable to the AAEECB.
- Hold a valid license or certificate of registration to practice professional engineering issued by the lawfully constituted registration board of any State, territory, possession or district of the United States. A valid certificate of registration or license issued by a foreign country may be accepted, provided it meets standards established by the AAEECB.
- Be professionally engaged in environmental engineering activities on a full time basis.

Experience Requirements

Candidates applying for certification by Written Examination and Peer Review shall have had at least eight (8) years of progressively responsible engineering experience following receipt of a baccalaureate degree or license, whichever occurs first, of which four (4) years shall have been in responsible charge of work at a level acceptable to the AAEECB in one or more of the designated environmental engineering specialties.

Candidates applying for certification without written examination must have had at least sixteen (16) years of progressively responsible environmental engineering experience following receipt of baccalaureate degree or license, whichever event occurs first, of which twelve (12) years shall have been in responsible charge of work at a level acceptable to the Board in one or more of the designated environmental engineering specialties.

Qualifying experience includes active and responsible participation and involvement in design, management, research, administration, or teaching primarily in one or more fields of environmental engineering.

CERTIFICATION REQUIREMENTS - BOARD CERTIFIED ENVIRONMENTAL ENGINEERING MEMBER (BCEEM)

The American Academy of Environmental Engineers and Scientists® certifies qualified environmental engineering members recommended by peers in their field of specialty as Board Certified Environmental Engineering Members by Eminence certification procedures prescribed by the Academy's Bylaws. Board Certified Environmental Engineering Members (BCEEM) are not licensed professional engineers, and the board certification made available to them through the Academy is not a substitute for a professional engineer's license.

Minimum Requirements

Each candidate for certification as a Board Certified Environmental Engineering Member is required to possess certain minimum qualifications.

All candidates shall:

- Possess a degree in environmental engineering or related engineering degree acceptable to the American Academy of Environmental Engineers Certification Board (AAEECB);
- Demonstrate a minimum of 20 years of experience in environmental engineering in academia, consulting, government, industry, or the military;
- Ten of those years must be in senior positions (senior management, teaching, research, consulting, industry, executive government position(s) or the military);
- Must have achieved a position of leadership within their organization. Meeting this qualification requires consideration of both the position the individual has achieved and also of the scale and nature of the organization wherein they hold this position;
- Must show a record of service to the profession (e.g., work on committees, commissions, boards of government and professional societies/organizations, etc.);
- Must show a record of professional honors and awards received; and
- A record of scholarly publications.

CERTIFICATION REQUIREMENTS - BOARD CERTIFIED ENVIRONMENTAL SCIENTIST (BCES)

The American Academy of Environmental Engineers and Scientists® certifies qualified environmental scientists recommended by peers in their field of specialty as Board Certified Environmental Scientists through certification procedures prescribed by the Academy's Bylaws.

Minimum Requirements

Each candidate for certification as a Board Certified Environmental Scientist is required to possess certain minimum qualifications.

All candidates shall:

- Be persons of good moral character and of high ethical integrity and professional standing, as determined by the American Academy of Environmental Scientists Certification Board (AAESCB).
- Possess a degree in environmental science or related science degree acceptable to the AAESCB.
- Be professionally engaged in environmental science activities on a full time basis.

Experience Requirements

Candidates applying for certification by Written Examination and Peer Review shall have had at least eight (8) years of progressively responsible experience following receipt of a baccalaureate degree, of which four (4) years shall have been in responsible charge of work at a

level acceptable to the AAESCB in one or more of the designated environmental science specialties.

Candidates applying for certification without written examination must have had at least sixteen (16) years of progressively responsible environmental science experience following receipt of baccalaureate degree, of which twelve (12) years shall have been in responsible charge of work at a level acceptable to the AAESCB in one or more of the designated environmental science specialties.

Qualifying experience includes active and responsible participation and involvement in design, management, research, administration, or teaching primarily in one or more fields of environmental science.

CERTIFICATION PROCEDURES

Initial Certification

The qualifications of all candidates for certification are first reviewed by the Academy's Admissions Committee to determine if the Academy's minimum requirements are satisfied and in which specialty the candidate is qualified to be examined. After approval by the Admissions Committee, the candidate is examined using specialty Written Examination and/or Peer Review, as appropriate.

The results of the examinations are returned to Staff for processing and then sent to the Admissions Committee for final review of the examination results.

Those engineering candidates who meet all the prescribed requirements are recommended by the Admissions Committee to the AAEECB, which votes to grant the certification.

Those science candidates who meet all the prescribed requirements are recommended by the Admissions Committee to the AAESCB, which votes to grant certification.

The Written Examinations and Peer Reviews are certification specific and specialty specific. They are developed and updated bi-annually by committees composed of Board Certified Environmental Engineers, Board Certified Environmental Engineering Members, and Board Certified Environmental Scientists certified in the specialty covered by the examination. Security and scoring of the written examinations are the responsibility of the Academy's Test Administration Department.

The Peer Reviews are conducted by teams of three Board Certified Environmental Engineers and/or Board Certified Environmental Engineering Members and/or Board Certified En-

vironmental Scientists in accordance with prescribed guidelines. The hour-long Peer Review, one part professional practice issues and two parts technical specialty problems, is used to determine a candidate's ethical concepts, maturity, presence of mind, engineering and/or scientific judgment, and ability to apply engineering and/or scientific principles and concepts that cannot be easily measured by written examinations. Should a candidate fail either one of the two examinations, the failed component(s) may be re-taken pursuant to Academy procedures.

Upon satisfactory completion of the entire evaluation process and paying the prescribed fees, the candidate is granted certification in a specialty recognized by the Academy and awarded the title, "Board Certified Environmental Engineer" (abbreviated BCEE) or "Board Certified Environmental Engineering Member" (abbreviated BCEEM) or "Board Certified Environmental Scientist" (abbreviated BCES). A certificate embossed with the Board Certified Environmental Engineer's, Board Certified Environmental Engineering Member's, or Board Certified Environmental Scientist's name and specialty is provided as confirmation.

Recertification

Annually, all Board Certified Environmental Engineers, Board Certified Environmental Engineering Members, and Board Certified Environmental Scientists must update their professional data on a form provided by the Academy by December 31. BCEEs must certify that their licenses or certificates of registration to practice professional engineering remain valid and in effect. They must pay the prescribed renewal

fee. In addition, each Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, and Board Certified Environmental Scientist is requested to certify that he or she complies with the Academy's continuing professional development requirements. Board Certified Environmental Engineers, Board Certified Environmental Engineering Members, and Board Certified Environmental Scientists must accumulate at least 40 Professional Development Hours (PDH) of continuing professional development in a two-year period to be recertified. The PDHs must include a mix of professional environmental engineering or environmental science work, formal education, and professional service. The Academy issues each person completing the certification renewal process an annual certificate attesting that the certification is valid in the specialty(ies) indicated thereon until year-end. Annually, 2 percent of Active and Life Active Board Certified Environmental Engineers, Board Certified Environmental Engineering Members, and Board Certified Environmental Scientists collectively are randomly audited to assure compliance with continuing professional development requirements.

Revocation

Specialty certification is automatically revoked for those Board Certified Environmental Engineers who fail to maintain a valid license or certificate of registration to practice professional engineering or who fail to complete the annual certification renewal process.

Specialty certification is automatically revoked for those Board Certified Environmental Engineering Members and Board Certified Environmental Scientists who fail to complete the annual certification renewal process.

Also, the American Academy of Environmental Scientists Certification Board or the American Academy of Environmental Engineers Certification Board of the Academy, by two-thirds vote of its respective members, may revoke the specialty certification of any Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, or Board Certified Environmental Scientist upon receipt of sufficient evidence of improper conduct. The basis for revocation shall include committing fraud or comparable dishonest acts; misrepresenting or concealing facts in the application for certification; misrepresenting Board Certification as a professional engineer's license; conviction of a crime involving moral turpitude; or committing such other acts considered good and sufficient cause by the Board for revocation.

CERTIFICATION ACTIONS

The following is a summary of actions taken in conjunction with the operations of its certification program during 2021.

Certifications

During 2020, 41 applications were received. In 2002, the Academy adopted the group processing approach, which enables an application for specialty certification to be fully processed in about eight months. To be included in an annual class, the application for specialty certification must be submitted to the Academy by March 31. Any application received after that date is held over for the next class. The applications received by March 31 are reviewed in April and May by the Admissions Committee for adequacy of references, education, and qualifying experience.

Examinations are administered to the qualified applicants during July and August at convenient locations throughout the country. The examination results are reviewed by the Admissions Committee in September.

Recommendations for each BCEE or BCEEM candidate are presented to the American Academy of Environmental Engineers Certification Board.

Recommendations for each BCES candidate are presented to the American Academy of Environmental Scientists Certification Board.

Each person's history is reviewed by the respective Board's members at the Academy's Spring or Annual Meeting and decisions are made to certify or not.

During 2021, 59 persons (including holdovers from 2020) were certified in the following specialties:

Certifications are granted using three variations of the same basic process. These variations depend upon the type of examinations required. 15 of these

SPECIALTY CERTIFICATION

persons certified were required to successfully complete both Written Examinations and Peer Reviews, 35 were required to take only the Peer Review, and 8 were certified by Eminence.

Recertification

All those who possessed valid certificates in 2021 were provided the appropriate forms in the Fall of 2021, with which to renew their certificates for 2022. Those persons choosing to submit the necessary documents by January 31st permitting their certificates to be continued for calendar year 2022 totaled 1,921. The names of those who renewed by January 31st appear in this publication.

CERTIFICATION STATUS

Those persons who possess a valid certificate of special knowledge in one or more of the specialties of environmental engineering recognized by the Academy are designated Board Certified Environmental Engineer (BCEE) or Board Certified Environmental Engineering Member (BCEEM).

Those persons who possess a valid certificate of special knowledge in one or more of the specialties of environmental science recognized by the Academy are designated Board Certified Environmental Scientists (BCES).

Professional Registration Required

All Board Certified Environmental Engineers, except Honorary Members, must maintain a valid license or certificate of registration to practice engineering for placement and continuance in any membership class.

All Board Certified Environmental Engineering Members must possess a Baccalaureate or higher degree in environmental engineering (or any other engineering field acceptable to the Board) from a college or university of recognized standing and at least 20 years of experience. Board Certified Environmental Engineering Members do not possess a P.E. License.

All Board Certified Environmental Scientists must possess a Baccalaureate or higher degree in environmental science (or any other science field accept-

able to the Board) from a college or university of recognized standing.

Continuing Professional Development Required

All Board Certified Environmental Engineers, Board Certified Environmental Engineering Members, and Board Certified Environmental Scientists must comply with the Academy's continuing professional development requirements to ethically represent that they are board-certified in connection with their duties and the practice of engineering or science.

The Certification Status categories are:

Active — A Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, or Board Certified Environmental Scientist in active practice, certified in one or more specialties, who maintains all the requirements for certification.

Life — One who has been a Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, or Board Certified Environmental Scientist in good standing for an uninterrupted period of at least 20 years, is at least 65 years of age, and maintains all the requirements for certification.

Emeritus — One who has been a Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, or Board Certified Environmental Scientist in good standing, who is no longer engaged in the practice of engineering or science, who has voluntarily relinquished or allowed to expire any and all licenses or certificates of registration to practice engineering or science, or who is classified as “Inactive” or “Retired” by the State Licensing Board(s) (or other State bodies) in which he/she is licensed or registered which precludes the practice of engineering or science.

Honorary — One who possesses one or more of the following characteristics may be designated an Honorary Member:

- has attained a position of eminence in the field of environmental and/or human health protection;
- has made a single noteworthy contribution or sustained contribution to the advancement of environmental and/or human health protection; or
- has rendered outstanding service over a long period of time resulting in the advancement of the affairs of the Academy.

Inactive Certification

Those persons who comply in all respects with Academy requirements, except for continuing professional development, are granted certification by the Academy in Inactive status. Such members may restore their certification to active status by demonstrating to the Academy’s satisfaction that they have continued their professional develop-

ment during the period when their certification was inactive.

Those with an Inactive certification may not ethically represent that they are board-certified in connection with their duties and the practice of engineering. However, they may continue to affix the title BCEE, BCEEM, or BCES to their name.

Inactive — A Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, or Board Certified Environmental Scientist, certified in one or more specialties, who satisfies all Academy requirements except those pertaining to the continuing professional development requirements.

Life-Inactive — One who has been a Board Certified Environmental Engineer, Board Certified Environmental Engineering Member, or Board Certified Environmental Scientist in good standing for an uninterrupted period of at least 20 years, is at least 65 years of age, and satisfies all Academy requirements except those pertaining to the continuing professional development requirements.

The Academy may recognize an individual with one of several awards. Recipients of these awards and a summary of the criteria for each are listed below.

For detailed profiles and more information on the AAEES Awards, go to <https://www.aaees.org/aaeesawards>.

Gordon Maskew Fair Award

The Gordon Maskew Fair Award honors one of the pioneers of environmental engineering. Dean Fair, in addition to his own exemplary career, spawned a living legacy during his lifetime -- those that he taught are now teaching us.

Through the Fair Award, the Academy seeks to identify Board Certified Environmental Engineers, Board Certified Environmental Engineering Members, and Board Certified Environmental Scientists who have contributed to the status of the environmental engineering or science professions by:

- Exemplary professional conduct
- Recognized achievements in the practice of environmental engineering and science
- Significant contributions to the control of the quality of the world's environment.

The Stanley E. Kappe Award honors the man whose dedicated leadership,

strong devotion, and tireless efforts contributed so much to the growth and advancement of AAEES during the period he served as its Executive Director, 1971 to 1981.

This Award is presented to the Board Certified Environmental Engineer or Board Certification Environmental Scientist who has performed extraordinary and outstanding service contributory to significant advancement of public awareness to the betterment of the total environment and other objectives to the Academy.

Paul F. Boulos Excellence in Computational Hydraulics/ Hydrology Award

This award is given annually to recognize a student whose research contributes to the knowledge pool in the area of Computational Hydraulics & Hydrology. The award selection will be based on original, innovative research of publishable quality and other factors listed below. Both Master's and Ph.D. students are eligible.

The AAES Science Award

The AAES Science Award is given to an individual who is an outstanding performer in the management and implementation of environmental science programs and projects conducted under either public or private auspices and has demonstrated exemplary professional conduct, has distinguished qualities of personal leadership, originality in devising new management techniques for dealing with environmental issues, and sensitivity and responsiveness to the impact of social and political influences on the conduct of environmental programs.

HONORARY MEMBERS

One or more Honorary Member may be selected each year by the Academy's Board of Trustees by affirmative vote of at least two-thirds of its members. The individual so honored possesses one or more of the following characteristics:

- has attained a position of eminence in the environmental engineering profession;
- has made a singular noteworthy contribution, or a sustained contribution, to the advancement of environmental engineering; and
- has performed outstanding service over a relatively long period of time in the advancement of the affairs of the Academy.

EXCELLENCE IN ENVIRONMENTAL ENGINEERING AND SCIENCE AWARDS

The Academy's Excellence in Environmental Engineering and Science® competition recognizes and promotes quality environmental engineering. Entries and awards are made in nine (9) categories of practice — Design, Environmental Sustainability, Industrial Waste Practice, Operations/Management, Planning, Research, Small Firms, Small Projects and University Research. The annual competition is open to all companies, agencies, institutions and individuals.

One Grand Prize is awarded in each category. Honor Awards are presented to other deserving entries, as determined by competition rules, in each category. The Superior Achievement for Excellence in Environmental Engineering and Science Award is presented to the overall best entry in each year's competition.

An independent panel of judges assesses each entry with respect to the following criteria:

1. Demonstration of a comprehensive, integrated approach that considers all environmental media (i.e., air, water and land).
2. Quality as evidenced by the degree of user satisfaction and proven performance.
3. Originality and innovation, representing the application of new knowledge, a new application of existing knowledge, or an innovative mix of existing knowledge.
4. The complexity of the problem or situation addressed.
5. The extent the Project contributes to or offers the prospect of contributing to social and economic advancement.

For a full list of winners, detailed project profiles, and more information on the E3S Awards, go to <https://www.aaees.org/e3scompetition>.

Superior Achievement for Excellence in Environmental Engineering and Science

- 2022 **PROJECT:** Innovative Use of In Situ Treatment Technologies at Joint Base Andrews
ENTRANT: HydroGeoLogic, Inc.
LOCATION: Brandywine, Maryland
- 2021 **PROJECT:** Sustainable Green Fleet: Clean Fuel for LA Today
ENTRANT: Los Angeles County Sanitation Districts
LOCATION: Los Angeles, California
- 2020 **PROJECT:** Tulare Lake Compost
ENTRANT: Sanitation Districts of Los Angeles County
LOCATION: Kings County, California
- 2019 **PROJECT:** Multipronged Collection System Odor Control Program at OCSD; Less Odors and Lower Costs
ENTRANT: Orange County Sanitation District
LOCATION: Fountain Valley, California
- 2019 **PROJECT:** Emergency Water Treatment with Ferrate(VI) in Response to Natural Disasters
ENTRANT: Yang Deng, Ph.D., P.E.
LOCATION: Montclair, New Jersey

- 2018 **PROJECT:** LA's Water Conservation Potential Study Targets a Sustainable Future
ENTRANT: Los Angeles Department of Water and Power
LOCATION: Los Angeles, California
- 2017 **PROJECT:** The Evolution of STAR from Laboratory Concept to Full-Scale In Situ Implementation
ENTRANT: Savron, a Division of Geosyntec Consultants, Inc.
LOCATION: Newark, New Jersey
- 2016 **PROJECT:** Improved Water Quality for Ixcan Guatemala
ENTRANT: Daniel B. Oerther, Ph.D., P.E., BCEE
LOCATION: La Antigua, Guatemala
- 2015 **PROJECT:** Bioconversion of Wastes (Wastewater Sludge, Glycerol) to Biodiesel
ENTRANT: Institut National de la Recherche Scientifique, Centre Eau Terre & Environnement (INRS-ETE), Université du Québec
LOCATION: Quebec, Canada
- 2014 **PROJECT:** South Los Angeles Wetland Park
ENTRANT: Psomas
LOCATION: Los Angeles, California
- 2013 **PROJECT:** Altoona Westery WWTP Biological Nutrient Removal Upgrade & Expansion
ENTRANT: Gwin, Dobson & Foreman, Inc., and Bassett Engineering
LOCATION: Altoona, Pennsylvania
- 2012 **PROJECT:** Witsand iEEECO™ (integrated energy environment empowerment-cost optimization) Sustainable Human Settlement
ENTRANT: PEER Consultants, PC/PEER Africa (pty) Ltd.
LOCATION: Atlantis, Cape Town South Africa
- 2011 **PROJECT:** Talking Water Gardens
ENTRANT: CH2M Hill
LOCATION: Albany, Oregon
- 2010 **PROJECT:** Patented Gaseous Electron Donor Injection Technology (GEDIT) for InSitu Biodegradation of Perchlorate and Nitrate
ENTRANT: CDM
LOCATION: Rancho Cordova, California
- 2009 **PROJECT:** Marina Barrage, Singapore
ENTRANT: CDM & PUB, Singapore's National Water Agency
LOCATION: Singapore
- 2008 **PROJECT:** Kay Bailey Hutchison Desalination Facilities
ENTRANT: CDM
LOCATION: El Paso, Texas
- 2007 **PROJECT:** 1st "Glass" Biosolids Vitrification Facility
ENTRANT: Donohue & Associates, Inc.
LOCATION: Zion, Illinois
- 2006 **PROJECT:** Rocky Flats Environmental Technology Site
ENTRANT: Kaiser-Hill Company, LLC
LOCATION: Broomfield, Colorado
- 2005 **PROJECT:** Johnston Atoll Closure
ENTRANT: CH2M Hill
LOCATION: South Pacific
- 2004 **PROJECT:** Gilbert and Mosley Project
ENTRANT: CDM
LOCATION: Wichita, Kansas
- 2004 **PROJECT:** First Major Biosolids Facility in USA to Achieve Pathogen-Free Standards
ENTRANT: City of Los Angeles, Department of Public Works, Bureaus of Engineering, Sanitation, and Contract Administration
LOCATION: Playa del Ray, California

AWARDS

- 2003 **PROJECT:** Capital Hill Anthrax Response
ENTRANT: CDM
LOCATION: Washington, DC
- 2002 **PROJECT:** Rouge River National Wet Weather Demonstration Project
ENTRANT: Camp Dresser & McKee Inc.
LOCATION: Wayne County, Michigan
- 2001 **PROJECT:** Ngau Tam Mei Water Treatment Works
ENTRANT: Camp Dresser & McKee Inc.
LOCATION: Kwai Fong, Hong Kong
- 2000 **PROJECT:** Hyperion Wastewater Quality Improvement Program
ENTRANT: DMJM/Black & Veatch
LOCATION: Los Angeles, California
- 1999 **PROJECT:** Hopewell Treatment Plant Process Enhancement and Enrichment (TPPEE) Project
ENTRANT: Malcolm Pirnie, Inc.
LOCATION: Hopewell, Virginia
- 1998 **PROJECT:** Complex-Wide Environmental Management Integration
ENTRANT: Idaho National Engineering and Environmental Laboratory
LOCATION: Idaho Falls, Idaho
- 1997 **PROJECT:** City of Chandler Industrial Process Water Treatment Facility
ENTRANT: Black & Veatch
LOCATION: Chandler, Arizona
- 1996 **PROJECT:** Harborside International Golf Center
ENTRANT: Illinois International Port District
LOCATION: Chicago, Illinois

- 1995 **PROJECT:** Oceanside Water Pollution Control Plant
ENTRANT: CH2M Hill
LOCATION: San Francisco, California

Grand Prize Winners

Activated Sludge Process & Its Variants

In commemoration of the 100th anniversary of the Activated Sludge process, the 2014 competition included a one-time only category “100th Anniversary of Activated Sludge”.

- 2014 **PROJECT:** Proliferation of Multidrug-resistant “Superbugs” (NDM-1-Positive) in Activated Sludge Treatment Plants
ENTRANT: Department of Civil and Environmental Engineering, Rice University
LOCATION: Research at Rice University

50th Anniversary of the Clean Air Act

In commemoration of the 50th anniversary of the 1970 Clean Air Act, the 2020 competition included a one-time only category “50th Anniversary of Clean Air Act”.

- 2020 **PROJECT:** Tulare Lake Compost
ENTRANT: Sanitation Districts of Los Angeles County
LOCATION: Kings County, California

50th Anniversary of the Clean Water Act

In commemoration of the 50th anniversary of the 1972 Clean Water Act, the 2022 competition included a one-time only category “50Th Anniversary of the Clean Water Act”.

2022 **PROJECT:** Regional San EchoWater BNR Project

ENVIRONMENTAL COMMUNICATIONS AWARDS

Communicating with the public at large and other constituents can be a complex and challenging issue. Communication and marketing plans must be designed to address the objectives and strategies of the campaign to reach a target audience.

With this in mind, AAEEES offered a new area of competition starting in 2012.

The criteria for judging the Environmental Communications Award:

- Innovative approach to messaging or branding
- Future value to the water engineering profession
- Creativity and clarity in portraying and communicating the messages
- Effectiveness in delivery and achieving desired outcomes
- Integrated Design Approach - Narrative and visual elements work together to achieve the communication objectives.

This award is designed to recognize outstanding environmental communication efforts by industry; municipal, state and federal governments; and consulting firms to convey their important environmental messages to the public and other stakeholders.

For a full list of winners, detailed project profiles, and more information on the EComm Awards, go to <https://www.aaees.org/ecommmcompetition>.

ACCREDITED ENVIRONMENTAL ENGINEERING PROGRAMS

The following educational institutions' programs in environmental engineering and related specialties have been accredited by the Accreditation Board for Engineering and Technology (ABET) as of October 1, 2021. The American Academy of Environmental Engineers and Scientists® is the lead society for assisting ABET in the preparation of program criteria for these programs. The complete text of the accreditation criteria to which the listed programs conformed can be accessed at <https://www.abet.org>.

KAPPE LECTURE SERIES

The Kappe Lecture Series was inaugurated by the Academy in 1989 to share the knowledge of today's practitioners with tomorrow's environmental engineers and scientists. It is an annually recurring series of lectures presented on college campuses during the Fall academic term. This focus enables it to complement the lecture series sponsored by the Association of Environmental Engineering & Science Professors which brings renowned research engineers to universities in the Spring term.

Lecturers are chosen from the practicing engineering community by the Academy's Awards Committee in the year preceding presentation of the lectures. An abstract of the lectures offered and a biographical profile of the lecturer is circulated to universities teaching environmental engineering and science together with an invitation to host the Kappe Lecturer. From among those universities expressing interest, the Awards Committee typically selects up to ten host universities. Host university responsibilities include payment of a nominal fee and publicizing the lecture to ensure widespread exposure of the lecturer to the academic and surrounding professional community.

This program was inspired by a grant from the estate of Stanley E. Kappe, P.E., BCEE, who served as the Academy's Executive Director from 1971 to 1981. This grant funded an endowment which is used, in conjunction with fees from participating universities, to reimburse the lecturer's travel costs and pay incidental program expenses.

STUDENT CHAPTERS OF AAEES

The American Academy of Environmental Engineers and Scientists® recognizes and assists environmental engineering or environmental science student associations. The requirements for recognition and support, together with a brief description of the benefits provided below.

The Academy will recognize environmental engineering and environmental science student chapters that:

- are organized to benefit environmental engineering and environmental science undergraduate and/or graduate students and related engineering and scientific disciplines as determined by the student chapter;
- are officially recognized (chartered) by the university where the student chapter is located;
- are operated with the guidance of a faculty advisor; and
- agree to fulfill the responsibilities prescribed by the Academy.

The Academy will provide student chapters which it recognizes with the following benefits:

- assignment of an BCEE, BCEEM, or BCES to provide practical assistance to a student chapter;
- a digital subscription to the *Environmental Engineer and Scientist* for each student member
- a certificate for the chapter commemorating the Academy's recognition; and

- assistance from the Academy in building a program of support for the student chapter that includes career guidance, materials and information about current topics in environmental engineering and science, presentations on campus, field trips to working sites, and other benefits and activities that are developed in response to student interest.

The following institutions currently have active AAEES Student Chapters:

- Bucknell University
- California Polytechnic State University
- California State University Channel Islands
- California State University of Fullerton
- California State University, East Bay
- California State University, Fresno
- California State University, Long Beach

ROSTER OF BOARD CERTIFIED ENVIRONMENTAL ENGINEERS

Introduction.....	78
Alphabetical Listing.....	79

INTRODUCTION

Organization

This Roster of Board Certified Environmental Engineers contains an Alphabetical Listing, which provides a summary professional profile, a Geographical Listing, and a Specialty Listing of all Board Certified Environmental Engineers in good standing as of January 31, 2022.

The Academy has included all the recognized specialties of practice covered in its definition of the term “environmental engineer.” These areas together with the abbreviations used throughout this Roster are listed below:

Air Pollution Control
 Environmental Sustainability
 General Environmental Engineering
 Hazardous Waste Management and Site Remediation
 Industrial Hygiene
 Radiation Protection
 Solid Waste Management
 Water Supply and Wastewater

Sanitary Engineer

The “Sanitary Engineer” category was used by the Academy between 1955 and 1974 to recognize the general practice of sanitary engineering without classification as to specialty.

Titles

All Board Certified Environmental Engineers of the Academy are licensed (registered) PEs and therefore, are legally empowered to practice engineering by one or more states and to use the title, “Professional Engineer” or “P.E.” Further, to denote their status as a specialty-certified environmental engineer, they are authorized by the Academy to

use the title “Board Certified Environmental Engineer” (BCEE).

Licensed: MA and 1-US Virgin Islands other state(s).

Zaman, Mohammad R.

CME Associates
Monmouth Junction, New Jersey
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (04/27/2012). **Board Certification Status:** Active.

Education: PhD, Environmental/Water Resources Engineering, Texas Tech University; MS, Civil/Environmental Engineering, Teaxs Tech University; BSc, Civil Engineering. **Licensed:** PA and 2 other state(s). **Sponsoring Organization Membership:** ASCE.

Zaslavsky, Yury J.

Aquatic Environmental Engineers, Inc.
Newport Beach, California
United States

Board Certification(s): Water Supply and Wastewater (06/01/1990).

Board Certification Status: Active.

Education: BS, MS Civil Engineering, Odessa Institute of Civil Engineering; MS, Civil Engineering, Odessa Institute of Civil Engineering. **Licensed:** CA and 1 other state(s). **Sponsoring Organization Membership:** AWWA.

Zegel, William C.

Water & Air Research, Inc.
Gainesville, Florida
United States

Board Certification(s): Air Pollution Control (01/01/1976).

Board Certification Status: Active. **Education:** ME, Chemical Engineering, Stevens Tech; MS, Chemical Engineering, Stevens Tech; ScD, Chemical Engineering. **Licensed:** FL and 1 other state(s).

Sponsoring Organization Membership: A&WMA, NSPE. **Other Awards and Honors:** Fellow Member, A&WMA.

Zenker, Matthew J.

AECOM

Morrisville, North Carolina

United States

Board Certification(s): Hazardous Waste Management and Site Remediation (11/11/2006). **Board**

Certification Status: Active.

Education: BS, Civil Engineering, Virginia Military Institute; MS, Civil Engineering, NC State University-Raleigh; PhD, Civil Engineering.

Licensed: NC and 1 other state(s).

Sponsoring Organization

Membership: ASCE.

Zenobia, Kent E.

Rocklin, California

United States

Board Certification(s): Hazardous Waste Management and Site Remediation (11/15/1994). **Board**

Certification Status: Active.

Education: BS, Civil Engineering, Newark College of Eng./NJIT; MS, Environmental Engineering, Drexel University. **Licensed:** CA and 6 other

state(s). **Sponsoring Organization**

Membership: ASCE. **Other Awards**

and Honors: President's Award

Outstanding Environmental Technical

Award, Kleinfelder; President's Award

Outstanding Achievement, Kleinfelder;

Interdisciplinary Technical Excellence,

Kleinfelder; Interdisciplinary Technical

Excellence, Kleinfelder; Fellow

Member, ASCE; Outstanding Client

Service Award, URS; ASCE and John

Wiley and Sons, Inc. Published a

reference book titled, Civil Engineer's

Handbook of Professional Practice;

2011, Hoboken, NJ; I was the CA

DWR Program Manager responsible

for the Feather River Setback Levee

which received the ASCE Region

9 Outstanding Flood Management

Project of the year. Other DWR staff,

Three Rivers Levee Improvement

Authority, and GEI shared in this

accomplishment..

Zhang, Sean X.

Hazen and Sawyer

New York, New York

United States

Board Certification(s):

Water Supply and Wastewater

(11/03/2005). **Board Certification**

Status: Active. **Education:** BS,

Mechanics, Beijing University; BS,

Environmental Hydraulics, IWHR;

MS, Civil Engineering. **Licensed:**

NY. **Sponsoring Organization**

Membership: ASCE, WEF.

Zhang, Tian Cheng

University of Nebraska-Lincoln
Omaha, Nebraska
United States

Board Certification(s): Water Supply and Wastewater (11/09/2013).

Board Certification Status: Active.

Education: BS, Civil Engineering, Wuhan University of Technology, China; MS, Environmental Engineering, Tsinghua University, China; PhD, Environmental Engineering. **Sponsoring**

Organization Membership: AEESP, ASCE, WEF. **Other Awards and**

Honors: Outstanding Doctoral Thesis Award, Parsons Engineering and AEESP; Journal of Environmental Engineering's Editor Award, ASCE.

Zhang, Wen

New Jersey Institute of Technology
Newark, New Jersey
United States

Board Certification(s): Water Supply and Wastewater (10/31/2017).

Board Certification Status: Active.

Education: BS, Environmental Engineering, Tsinghua University, China; MS, Environmental Engineering, Tongji University, China; PhD, Environmental Engineering.

Licensed: NJ. **Sponsoring**

Organization Membership: AEESP.

Other Awards and Honors: CH2M Hill AEESP Outstanding Doctoral Dissertation Award, AEESP; Simon Karecki Award, SRC/SEMATECH Engineering Research Center for Environmentally Benign Semiconductor Manufacturing; ASCE New Jersey Section's Educator of the Year; CIBA/ACS Younger Chemists Committee (YCC) Young Scientist Travel Award, ACS.

Zhao, Hong W.

Kruger, Inc.
Cary, North Carolina
United States

Board Certification(s): Water Supply and Wastewater (11/11/2006).

Board Certification Status: Active.

Education: BS, Environmental Engineering, Tsinghua University, China; MS, Environmental Engineering, University of Regina, Canada; PhD, Environmental Engineering. **Licensed:** OH.

Sponsoring Organization Membership: WEF.

Zhou, Jianpeng

Southern Illinois University
Edwardsville
Edwardsville, Illinois
United States

Board Certification(s): Water Supply and Wastewater (11/14/2004).

Board Certification Status: Active.

Education: BEng, Environmental Engineering, Tsinghua University, China; MEng, Environmental Engineering, Tsinghua University, China; MAsc, Environmental Engineering. **Licensed:** WA.

Sponsoring Organization Membership: AEESP, ASCE.

Zhou, Zhi

Purdue University
West Lafayette, Indiana
United States

Board Certification(s): Water Supply and Wastewater (10/31/2017).

Board Certification Status: Active.

Education: BS, Environmental Science, Nanjing University, China; MS, Environmental Science, Nanjing University, China; PhD, Environmental Science/Civil Engineering. **Licensed:** CA.

Sponsoring Organization Membership: AEESP, ASCE.

Zimmerman, R. Eric

R.E. Zimmerman Consulting, LLC
Naperville, Illinois
United States

Board Certification(s): General Environmental Engineering (04/29/1988). **Board Certification Status:** Active. **Education:** BS, Syracuse University, Syracuse University; MS, Syracuse University; PhD, Northwestern University, Northwestern University. **Licensed:** IL and 3 other state(s). **Sponsoring Organization Membership:** ASCE.

Zitomer, Daniel Harris

Marquette University
Milwaukee, Wisconsin
United States

Board Certification(s): Water Supply and Wastewater (11/12/2011). **Board Certification Status:** Active. **Education:** BS, Civil Engineering, Drexel University; MS, Environmental Engineering, Vanderbilt University; PhD, Environmental Engineering. **Licensed:** WI. **Sponsoring Organization Membership:** ASCE, WEF.

Zitsch, Katherine H.

Atlanta Regional Commission
Atlanta, Georgia
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (11/14/2004). **Board Certification Status:** Active. **Education:** BS, Civil Engineering, Clemson University; MS, Environmental Engineering, Clemson University. **Licensed:** GA and 1 other state(s). **Sponsoring Organization Membership:** AWWA.

Zitterkopf, Ronald E.

Shawnee Mission, Kansas
United States

Board Certification(s): Water Supply and Wastewater (01/01/1981). **Board Certification Status:** Active. **Education:** BS, Civil Engineering, University of Nebraska-Lincoln; MS, Environmental Engineering, University of Nebraska-Lincoln; JD, Law. **Licensed:** MO and 4 other state(s). **Sponsoring Organization Membership:** ASCE, NSPE. **Other Awards and Honors:** Young Engineer of the Year, Missouri Society of Professional Engineers; Distinguished Service Award, Missouri Society of Professional Engineers.

Zmiejko, Mariush D.

Black & Veatch
Stoughton, Massachusetts
United States

Board Certification(s): Water Supply and Wastewater (11/10/2012). **Board Certification Status:** Active. **Education:** BS, Civil Engineering, Rensselaer Polytechnic Institute. **Licensed:** MA and 4 other state(s). **Sponsoring Organization Membership:** AWWA.

ROSTER OF BOARD CERTIFIED ENVIRONMENTAL ENGINEERING MEMBERS

Introduction.....	416
Alphabetical Listing.....	417

INTRODUCTION

Organization

This **Roster of Board Certified Environmental Engineering Members** contains an Alphabetical Listing, which provides a summary professional profile, a Geographical Listing, and a Specialty Listing of all Board Certified Environmental Engineering Members in good standing as of January 31, 2022.

The Academy has included all the recognized specialties of practice covered in its definition of the term “environmental engineer.” These areas together with the abbreviations used throughout this Roster are listed below:

- Air Pollution Control
- Environmental Sustainability
- General Environmental Engineering
- Hazardous Waste Management and Site Remediation
- Industrial Hygiene
- Radiation Protection
- Solid Waste Management
- Water Supply and Wastewater

Titles

All Board Certified Environmental Engineering Members of the Academy denote their status as a specialty-certified member, they are authorized by the Academy to use the title “Board Certified Environmental Engineering” (BCEEM).

Typical Alphabetical Listing

Mihelcic, James R.

University of South Florida
Tampa, Florida
United States

Board Certification(s): General Environmental Engineering (11/07/2008). **Board Certification Status:** Active. **Education:** BS,

Environmental Engineering, Penn State; MS, Civil Engineering, Carnegie Mellon University; PhD, Civil Engineering. **Sponsoring Organization Membership:** AEESP, ASEE, WEF. **AAEES Awards:** Excellence in Environmental Engineering and Science Education Award. **Other Awards and Honors:** Wiley Interscience Award, AEESP; Doctoral Dissertation Award, AEESP.

About the Biography

The biographical sketch includes the degrees granted including the name(s) of the granting institution and the date(s) granted; and, the date when specialty certification was granted by the Academy. The individual's membership in Academy sponsor organizations is provided using the acronyms of these organizations. See page 12 for a listing of these organizations and their acronyms. The listing also includes the major engineering and technical awards granted and the acronym or name of the granting institution.

ALPHABETICAL LISTING

Adams, Douglas Edward

Vanderbilt University
Nashville, Tennessee
United States

Board Certification(s): Environmental Sustainability (09/01/2015). **Board**

Certification Status: Active.

Education: BS, Mechanical Engineering, University of Cincinnati; MS, Mechanical Engineering, Massachusetts Institute of Technology; PhD, Mechanical Engineering. **Other**

Awards and Honors: Person of the Year, Sage Publications, Solberg Award, Purdue University, Engineering Inaugural Young Faculty Researcher, Purdue Schools; Murphy Award, Purdue University; University Faculty Scholar, Purdue University; Best Paper, Society for Advancement of Materials/Process Eng. Solberg Award, Purdue University; DeMichele Award, Society for Experimental Mechanics, Outstanding Young Investigator Award, ASME, Shaeffer Fellow of Mechanical Engineering, Purdue University; Commander's Award, US Navy Air Warfare Center; Excellence in Teaching, Purdue University, Elected Fellow, ASME; Book of Great Teacher, Purdue University 2016, Lazan Award, Society for Experimental Mechanics.

Adin, Avner

Hebrew University of Jerusalem
Rehorot, Israel

Board Certification(s): Water Supply and Wastewater (05/06/2009).

Board Certification Status:

Active. **Education:** BS, Civil Engineering, Technion, Israel Institute of Technology; MS, Sanitary Engineering-Technion, Israel Institute of Technology; D.Sc., Environmental Engineering-Technion. **Other**

Awards and Honors: Publication Award, AWWA; Lunenfeld, Kuhn Chair Professor; Inaugural Lecturer, Hokkaido University; Kaye Innovation Award; Life Member, AWWA; Special Recognition, Israeli Water Association; Distinguished Member, Rotary Club; President of Cleantech 2013 and 2014 International Exhibition and Conference.

Aguinaldo, Jorge T.

Bechtel Energy Inc.
Houston, Texas
United States

Board Certification(s): Water Supply and Wastewater (11/04/2010).

Board Certification Status: Active.

Education: BS, Chemical Engineering, Adamson University, Philippines; MS, Environmental Engineering, University of South Florida, Tampa. **Sponsoring**

Organization Membership: AIChE,

AWWA, WEF. **Other Awards and**

Honors: AIChE; AWWA; WEF; Life Member, AWWA.

Axe, Lisa

New Jersey Institute of Technology
Newark, New Jersey
United States

Board Certification(s): Water Supply and Wastewater (09/02/2014).

Board Certification Status: Active.

Education: BS, Geoscience, Geochemistry Option, Purdue University; MS, Environmental Engineering, Illinois Institute of Technology; MChE, Chemical Engineering. **Sponsoring**

Organization Membership: AEESP, AIChE, ASCE, AWWA. **Other Awards and Honors:** Recipient, of the Water Environment Federation Student Recognition Award; Recipient of the American Chemical Society Graduate Student Award; Certificate of Merit, 209th National Meeting of the ACS; New Jersey WEA Scholar Award, New Jersey WEA; Louis Berger International Scholar Award, Louis Berger; 2nd Prize 96th New Jersey Water Environment Association Graduate Competition; 16 High Value Research Projects, Transportation Research Board; Certificate of Merit, National Meeting of the ACS.

Bierman, Jr., Victor J.

LimnoTech
Chapel Hill, North Carolina
United States

Board Certification(s): Water Supply and Wastewater (04/29/2010).

Board Certification Status: Active.

Education: AB, Science, Villanova University; MS, Physics, University of Notre Dame; PhD, Environmental Engineering.

Biswas, Pratim

Washington University In St. Louis
St. Louis, Missouri
United States

Board Certification(s): Air Pollution Control (05/04/2006). **Board**

Certification Status: Active.

Education: BTech, Mechanical Engineering, Indian Institute of Technology, Bombay; MS, Mechanical Engineering, University of California-Los Angeles; PhD, Mechanical Engineering. **Other Awards and**

Honors: Kenneth Whitby Award, American Association for Aerosol Res.; Fellow, Academy of Science, St. Louis Science Academy.

Boulos, Paul F.

Denver, Colorado
United States

Board Certification(s): Water Supply and Wastewater (11/12/2011).

Board Certification Status: Active.

Education: BS, Civil Engineering, University of Kentucky; MS, Civil Engineering, University of Kentucky; PhD, Civil Engineering. **Sponsoring**

Organization Membership: ASCE, AWWA. **AAEES Awards:** Edward J. Cleary Award. **Other Awards**

and Honors: European Academy of Sciences and Arts; ASCE John I. Parcel-Leif J. Sverdrup Civil Engineering Management Award; ASCE Distinguished Member (Dist.M.ASCE); National Academy of Engineering (NAE); University of Kentucky Hall of Distinction; U.S. Ellis Island Medal of Honor; ASCE Simon W. Freese Environmental Engineering Award and Lecture.

Brown, Kevin George

Vanderbilt University
Nashville, Tennessee
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (09/01/2015).

Board Certification Status: Active. **Education:** BE, Chemical Engineering, Vanderbilt University; MS, Environmental/Water Resources Engineering, Vanderbilt University; PhD, Environmental Engineering.

Sponsoring Organization

Membership: AIChE. **Other**

Awards and Honors: George Westinghouse Award for Service Excellence; George Westinghouse Corporate Gold Signature Award of Excellence; Westinghouse Savannah River Company Performance Awards Program; Westinghouse Savannah River Company Incentive Compensation Special Award; National Science Foundation Integrative Graduate Education and Research Traineeship.

Cabezas, Heriberto

University of Miskolc
Miskolc,
Hungary

Board Certification(s): General Environmental Engineering (05/02/2007). **Board Certification Status:** Active. **Education:** BS, Chemical Engineering, New Jersey Institute of Technology; MS, Chemical Engineering, University of Florida; PhD, Chemical Engineering. **Sponsoring Organization**
Membership: AIChE. **Other**
Awards and Honors: EPA Science Achievement in Engineering, US EPA/NSPE; ORD, US EPA, Diversity Leadership Award; NRMRL, US EPA, Team Achievement Award; US EPA, Exemplary Leadership; Distinguished Alumni Achievement, Alumni Association New Jersey Institute of Technology; Bronze Medal, US EPA; Research Excellence in Sustainable Engineering, AIChE; Lawrence K. Cecil Award in Environmental Chemical Engineering, AIChE.

Carrico, Christian M.

New Mexico Institute of Mining/
Technology
Socorro, New Mexico
United States

Board Certification(s): Air Pollution Control (08/30/2016). **Board**

Certification Status: Active.

Education: MS, Environmental Engineering, University of Illinois-Urbana Champaign; PhD, Environmental Engineering, University of Illinois-Urbana Champaign.

Childress, Amy E

University of Southern California
Los Angeles, California
United States

Board Certification(s): Water Supply and Wastewater (03/20/2013).

Board Certification Status: Active.

Education: BS, Civil Engineering, University of Maryland; MS, Civil and Environmental Engineering, University of California, Los Angeles; PhD, Civil and Environmental Engineering.

Sponsoring Organization

Membership: AEESP, ASCE, AWWA, WEF.

Christodoulatos, Christos

Stevens Institute of Technology
Hoboken, New Jersey
United States

Board Certification(s): Water Supply and Wastewater (07/27/2018).

Board Certification Status: Active.

Education: BE, Chemical Engineering, City College of New York; ME, Chemical Engineering, City College of New York; PhD, Environmental Engineering. **Other Awards and**

Honors: Founders Award; Stevens Teaching Award.

Davis, Wayne Thomas

University of Tennessee
Alcoa, Tennessee
United States

Board Certification(s): Air Pollution Control (09/02/2014). **Board**

Certification Status: Active.

Education: AB, Physics, Pfeiffer College; MS, Physics, Clemson University; MS, Environmental Engineering. **Sponsoring**

Organization Membership: A&WMA, AEESP, ASCE, ASEE. **Other Awards**

and Honors: Harris Teetor Award, Society of Automotive Engineers; Outstanding Teacher of the Year, University of Tennessee; Outstanding Public Service Award, University of Tennessee; Lyman A. Ripperton Award for Outstanding Educator, AWWA; Outstanding Research Award, University of Tennessee; Best Paper Award in Filtration Media Session, TAPPI Nonwovens Conference; Conference Best Paper Award, TAPPI Nonwovens Conference; Chancellor's Award for Research and Creative Achievement, University of Tennessee.

de los Reyes, III, Francis Lajara

North Carolina State University
Raleigh, North Carolina
United States

Board Certification(s): Water Supply and Wastewater (11/12/2021).

Board Certification Status:

Active. **Education:** BS, Agricultural Engineering, University of Philippines; MS, Civil Engineering, Iowa State University; PhD, Environmental Engineering. **Sponsoring**

Organization Membership: AEESP,

WEF. **Other Awards and Honors:** Fellow, Water Environment Federation; Patents for Humanity Award, US Patent Office; Corresponding Member, National Academy of Science and Technology, Philippines; Academy of Excellence in Global Engagement, NC State University; Environmental Challenge Award, RELX Group; Outstanding Teacher Award, Academy of Outstanding Faculty in Teaching, NC State University; Steven K. Dentel Award for Global Outreach, AEESP; Research Honor Award, AAEEES.

Dionysiou, Dionysios D.

University of Cincinnati
Cincinnati, Ohio
United States

Board Certification(s): Water Supply and Wastewater (07/27/2018).

Board Certification Status: Active.

Education: BS, Chemical Engineering, National Technical University of Athens, Greece; MS, Chemical Engineering, Tufts University; PhD, Environmental Engineering.

Sponsoring Organization

Membership: AEESP, AIChE, ASCE, ASEE, AWWA, WEF. **Other Awards and Honors:** Journal of Environmental Engineering Editor's Award, ASCE; First Place Academic Achievement Award, Best Dissertation, AWWA; Excellence in Review Award; Frontier in Research Award, ARCADIS/AEESP; Certificate of Recognition-Reviewing Award, American Chemical Society; Distinguished Service Award, AEESP; Sustainable Water Award, Royal Society of Chemistry; Master Educator Award, University of Cincinnati.

Ducoste, Joel Jean

North Carolina State University
Raleigh, North Carolina
United States

Board Certification(s): Water Supply and Wastewater (08/30/2016).

Board Certification Status:

Active. **Education:** BS, Mechanical Engineering, Rensselaer Polytechnic Institute; MEng, Mechanical Engineering, Rensselaer Polytechnic Institute; PhD, Environmental Engineering. **Sponsoring**

Organization Membership: AEESP, AWWA, WEF.

Earle, Celia Denise

Brown and Caldwell
Sunrise, Florida
United States

Board Certification(s): Water Supply and Wastewater (09/13/2019).

Board Certification Status: Active.

Education: BS, Microbiology & Cell Sciences, University of Florida-Gainesville; MS, Environmental Engineering, University of Florida-Gainesville; BS, Environmental Engineering. **Sponsoring**

Organization Membership: AWWA.

Other Awards and Honors: Priede Sedgwick Award, University of Florida; George F. Hixson, Kiwanis International; Distinguished & Exceptional Lt. Governor of the Florida District of Kiwanis; Outstanding Woman in Technology, National Society of Black Engineers; Women's Hall of Fame, Broward County; Unsung Hero Award, Caribbean Heritage Month; Women of Distinction Award, Lauderhill Regional Chamber of Commerce; Committee for Diversity and Inclusion, ASCE.

Eighmy, Thomas Taylor

The University of Texas-San Antonio
San Antonio, Texas
United States

Board Certification(s): General Environmental Engineering (11/10/2012). **Board Certification**

Status: Active. **Education:** BS, Biology, Tufts University; MS, Civil Engineering, University of New Hampshire; PhD, Civil Engineering.

Other Awards and Honors: Woods Hole Oceanographic Institution Guest Student Fellowship; University of New Hampshire Doctorial Dissertation Fellowship; University of New Hampshire Excellence in Research Aware; Michael Berger Outstanding Faculty Advisor Award 2002 WERC International Design Competition.

Elliott, Daniel W.

Geosyntec Consultants
Ewing, New Jersey
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (03/29/2019). **Board Certification Status:** Active.

Education: AB, Chemistry, Vassar College; MS, Environmental Science/Engineering, UNC, Chapel Hill; PhD, Environmental Engineering.

Freedman, David L

Clemson University
Anderson, South Carolina
United States

Board Certification(s): General Environmental Engineering (10/15/2009). **Board Certification Status:** Active. **Education:** BS, Science & Environmental, University of Wisconsin-Green Bay; MS, Environmental Engineering, University of Cincinnati; PhD, Environmental Engineering. **Sponsoring Organization Membership:** AEESP, WEF. **Other Awards and Honors:** GE Teaching Incentive Grant, Cornell University; Post-Doctoral Fellowship Award, American College of Toxicology; First Place, Montgomery Watson Master's Thesis; Second Place, Montgomery Watson Harsa Master Thesis Award; Outstanding Publication Award, AEESP.

Fu, Joshua S.

The University of Tennessee
Knoxville, Tennessee
United States

Board Certification(s): Air Pollution Control (03/30/2020). **Board Certification Status:** Active. **Education:** BS, Environmental Engineering, National Cheng Kung University, Taiwan; MS, Civil/Environmental Engineering, University of California-Los Angeles; PhD, Civil Engineering. **Other Awards and Honors:** Who's Who in America, Marquis Who'sWho; Chancellor Award for Professional Promise in Research and Creative Achievement, The University of Tennessee; Significant Event Award, Oak Ridge National Laboratory; Most Cited Article Award, Atmospheric Environment, Elsevier Limited; The 2018 Albert Nelson Marquis Lifetime Achievement Award, Marquis Who's Who; John D. Tickle Professorship, Tickle College of Engineering, The University of Tennessee; Lyman A. Ripperton Environmental Educator Award, A&WMA; Moses E. and Mayme Brooks Distinguished Professor Award, University of Tennessee.

George, Andrea Kus

Vanderbilt University
Nashville, Tennessee
United States

Board Certification(s): Environmental Sustainability (08/20/2020). **Board**

Certification Status: Active.

Education: BS, Physics and Mathematics/Environmental Science; MS, Environmental Engineering, Vanderbilt University; PhD, Environmental Engineering. **Other**

Awards and Honors: George V. Page Physics Award, WKU; Award of Recognition, Campus Safety Health and Environmental Management Association; Governors Environmental Stewardship Award, Vanderbilt University; Governors Environmental Stewardship Award, Vanderbilt University; Sustainable Transportation Award, Vanderbilt University; Service Champion Award Vanderbilt University; Chancellor's Excellence Award Vanderbilt University.

Ghorpade, Ajit Kisanrao

King of Prussia, Pennsylvania
United States

Board Certification(s): Water Supply and Wastewater (04/27/2012).

Board Certification Status: Active.

Education: BS, Chemical Engineering, University of Mysore, Surathkal, India; MChemEng, Chemical Engineering, University of Bombay, India; MS, Chemical & Environmental Engineering, University of Louisville.

Sponsoring Organization

Membership: AIChE, WEF. **Other Awards and Honors:** Gary Leach Award, AIChE.

Grogan, Daniel Robert

Wood Environment & Infrastructure Solutions, PLC
Kennesaw, Georgia
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (07/27/2018). **Board**

Certification Status: Active.

Education: BA, Mercer University; BE, Georgia Institute of Technology.

Gupta, Biman Gati Gati

Elite College of Engineering
Kolkata,
India

Board Certification(s): Water Supply and Wastewater (08/20/2020).

Board Certification Status: Active.

Education: B.E., Civil Engineering, Bengal Engineering College, Calcutta University, India; PG.Diploma, Environmental Management, University of Kalyani, Kalyani, India; Ph.D., Environmental Science, University of Kalyani. **Sponsoring**

Organization Membership: ASCE.

Other Awards and Honors: Fellow, The Institution of Engineers, India; Srimati Saralabala Sanyal Memorial Award from the Institute of Engineers, India; Fellow, American Society of Civil Engineers, USA; Environmental & Water Resource Institute, ASCE, USA.

Gustafson, Thomas J

PEER Consultants, P.C.
Burlington, Massachusetts
United States

Board Certification(s): Water Supply and Wastewater (05/24/2022).

Board Certification Status: Active.

Education: Assoc Degree, Civil Engineering Technology, University of Maine; BS, Civil Engineering, Northeastern University. **Licensed:** MA.

Haas, Charles N.

Drexel University
Philadelphia, Pennsylvania
United States

Board Certification(s): Water Supply and Wastewater (11/02/2007).

Board Certification Status:

Active. **Education:** BS, Biology, Illinois Institute of Technology; MS, Environmental Engineering, Illinois Institute of Technology; PhD, Environmental Engineering.

Sponsoring Organization

Membership: AEESP, ASCE, ASEE, AWWA, WEF.

Harris, Kate Clare Elizabeth

Stanley Consultants Inc.
Bloomfield, Colorado
United States

Board Certification(s): Environmental Sustainability (05/24/2022). **Board**

Certification Status: Active.

Education: BS, Quantity Surveying/ Construction Law, UWE-Bristol England; Advance Mgmt Program, Executive Leadership, Harvard University.

Hasek, Jr., Thomas P.

Seneca Meadows
New York
United States

Board Certification(s): Solid Waste Management (09/01/2015).

Board Certification Status: Active.

Education: AS, Civil Technology & Environmental Controls, Monroe Community College; BS, Civil Engineering, Rochester Institute of Technology; MS, Environmental Studies. **Sponsoring Organization**
Membership: A&WMA, ASCE, SWANA.

Holsen, Thomas M.

Clarkson University
Potsdam, New York
United States

Board Certification(s): General Environmental Engineering (03/20/2013). **Board Certification**

Status: Active. **Education:** BS, Environmental Sciences, University of California-Berkeley; MS, Civil Engineering, University of California-Berkeley; PhD, Civil Engineering.

Sponsoring Organization

Membership: A&WMA, AEESP. **Other Awards and Honors:** Newhouse Fellowship; BF Goodrich Collegiate Inventors Award (co-winner) The Chromyl Chloride Process - A Novel Technique for Chromium Recovery from Aqueous Solutions; Albert D. Merrill Prize, Clarkson University; Distinguished Service Award, AEESP; Albert D. Merrill Prize, Clarkson University.

Hua, Inez

Purdue University
Lafayette, Indiana
United States

Board Certification(s): Environmental Sustainability (11/12/2021). **Board**

Certification Status: Active.

Education: BA, Biochemistry, University of California-Berkeley; MS, Environmental Science and Engineering, Caltech; PhD, Environmental Science and Engineering.

Huyakorn, Peter S

HydroGeoLogic, Inc
Reston, Virginia

Board Certification(s): Water Supply and Wastewater (09/22/2022). **Board Certification Status:** Active.

Jafvert, Chad Timothy

Purdue University
West Lafayette, Indiana
United States

Board Certification(s): General Environmental Engineering (09/15/2013). **Board Certification**

Status: Active. **Education:** BS, Biochemistry, Iowa State University; MS, Civil/Environmental Engineering, The University of Iowa; PhD, Civil/Environmental Engineering. **Sponsoring Organization Membership:** AEESP. **AAEES Awards:** Excellence in Environmental Engineering and Science Education Award. **Other Awards and Honors:** Sustained Superior Performance Award, US EPA; Sustained Superior Performance Award, US EPA; National Research Council Postdoctoral Associate Award; Scientific and Technological Achievement Award, Honorable Mention, US EPA; Inaugural Richard L. Valentine Distinguished Award, The University of Iowa, Department of Civil/Environmental Engineering; Honorary Visiting Professor, Southeast University, Nanjing, P.R. China.

Jones, Kimberly L.

Howard University
Washington, District of Columbia
United States

Board Certification(s): Water Supply and Wastewater (11/12/2021).

Board Certification Status: Active. **Education:** BS, Civil Engineering, Howard University; MS, Environmental Engineering, University of Illinois-Champaign/Urbana; PhD, Environmental Engineering.

Sponsoring Organization Membership: AEESP, ASCE, AWWA, WEF.

Korfiatis, George P.

Stevens Institute of Technology
Hoboken, New Jersey
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (07/27/2018). **Board Certification Status:** Active.

Education: BS, Civil Engineering, Rutgers; MS, Water Resources Engineering, Rutgers University; MS, Philosophy. **Sponsoring Organization Membership:** A&WMA, ASCE, ASEE. **Other Awards and Honors:** Educator of the Year, Stevens Chi Epsilon; Exemplary Achievement in Research, Stevens; Finalist, Tech Museum Technology Awards; Thomas Alva Edison Patent Award, Research and Development Council of New Jersey; Inventor of the Year, New Jersey Inventors Hall of Fame.

Kunapuli, Anuradha M

Merck & Co., Inc.
Kenilworth, New Jersey
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (11/10/2012). **Board Certification Status:** Active.

Education: BS, Civil Engineering, Osmania University, India; MS, Environmental Engineering, New Jersey Institute of Technology.

Linden, Karl G.

University of Colorado-Boulder
Boulder, Colorado
United States

Board Certification(s): Water Supply and Wastewater (09/01/2015).

Board Certification Status: Active.

Education: MS, Civil/Environmental Engineering, University of California-Davis; PhD, Civil/Environmental Engineering, University of California-Davis. **Sponsoring Organization**

Membership: ASCE, AWWA. **Other Awards and Honors:** Distinguished Faculty Award, University of Colorado; Faculty Research Award, College of Engineering and Applied Science; Best Classic UV Paper Award, International UV Association; Best Research Paper Award, International UV Association; University Research Award, University of Colorado-Boulder; Pioneer Award in Disinfection and Public Health, WEF; Australian Water Recycling Center of Excellence Fellow; WateReuse Person the Year Award, WateReuse Association.

Lo, Shang-Lien

National Taiwan University
Taipei,
Taiwan

Board Certification(s): Water Supply and Wastewater (11/04/2010).

Board Certification Status: Active.

Education: BS, Civil Engineering, National Taiwan University; MS, Environmental Engineering, National Taiwan University; PhD, Environmental Engineering. **Sponsoring**

Organization Membership: ASCE, WEF. **Other Awards and Honors:** IWA Fellow, International Water Association; Environmental Protection Medal, First Prize, Taiwan, ROC; Y.Z. Hsu Scientific Chair Professor, Green Technology Category, Far Eastern Y.Z. Hsu Science and Technology Memorial Foundation; Distinguished Research Fellow Medal, National Science Council, Taiwan, ROC; Engineering Medal, Chinese Taiwan Water Works Association; Ho Chin Tui Outstanding Environmental Technology Prize, Ho Chin Tui Foundation; Outstanding Engineering Professor Medal, Chinese Institute of Engineers; Engineering Medal, Chinese Institute of Environmental Engineering.

Lowry, Gregory V.

Carnegie Mellon University
Pittsburgh, Pennsylvania
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (09/13/2019). **Board Certification Status:** Active.

Education: BS, Chemical Engineering, University California-Davis; MS, Environmental Engineering, University of Wisconsin-Madison; PhD, Environmental Engineering.

Sponsoring Organization

Membership: ASCE. **AAEES Awards:** Science Award. **Other Awards**

and Honors: Frontiers in Research Award, AEESP/Malcolm Pirnie; Walter L. Huber Research Prize, ASCE; Steven J. Fenves Award, Carnegie Mellon; Best Feature Article of 2012, Environmental Science & Technology; Thompson-Reuters Highly Cited Researcher; PhD Dissertation Award, National Research Council of Thailand; Distinguished Service Award, AEESP; Fellow, AAAS.

Mackay, Allison

The Ohio State University
Columbus, Ohio
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (03/30/2020). **Board Certification Status:** Active.

Education: BA, Engineering Science, University of Toronto, Canada; MS, Civil/Environmental Engineering, Massachusetts Institute of Technology; PhD, Environmental Engineering.

Other Awards and Honors: Poster Award, AEESP; Environmental Science & Technology Reviewer Award; Faculty Environmental Policy Advisory Council Award, University of Connecticut; United Technologies Corporation Associate Professor in Engineering Innovation; SETAC Chemist Travel Award; AEESP Outstanding Service Award.

MacPhee, Michael J.

Carollo Engineers, Inc.
Parker, Colorado
United States

Board Certification(s): Water Supply and Wastewater (10/15/2009).

Board Certification Status: Active.

Education: BSc, Chemistry, St. Francis Xavier University, Canada; MAsc., Civil Engineering, Technical University of Nova Scotia, Canada; PhD, Civil Engineering. **Sponsoring Organization Membership:** ASCE, AWWA, WEF.

Martinez, Ricardo A

PEER Consultants, Inc.
WASHINGTON, District of Columbia
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (05/24/2022). **Board Certification Status:** Active. **Education:** BE, Chemical Engineering, Universidad Centroamericana UCA, San Salvador, El Salvador; MS, Environmental Engineering, Florida International University. **Licensed:** FL and 3 other state(s).

Matsumoto, Mark R.

University of California-Riverside
Merced, California
United States

Board Certification(s): Water Supply and Wastewater (03/20/2013).

Board Certification Status: Active.

Education: BS, Civil Engineering, University of California-Irvine; MS, Civil/Environmental Engineering, University of California-Davis; PhD, Civil/Environmental Engineering.

Sponsoring Organization

Membership: ASEE. **Other Awards and Honors:** Teaching Fellow, Lilly Foundation Endowment; Outstanding Teaching Award, Bourns College of Engineering; Fellow, American Association for the Advancement of Science.

Mihelcic, James R.

University of South Florida
Tampa, Florida
United States

Board Certification(s): General Environmental Engineering (11/07/2008). **Board Certification Status:** Active. **Education:** BS, Environmental Engineering, Penn State; MS, Civil Engineering, Carnegie Mellon University; PhD, Civil Engineering. **Sponsoring Organization Membership:** AEESP, ASEE, WEF. **AAEES Awards:** Excellence in Environmental Engineering and Science Education Award. **Other Awards and Honors:** Wiley Interscience Award, AEESP; Doctoral Dissertation Award, AEESP.

Ng, How Yong

National University of Singapore
Singapore,
Singapore

Board Certification(s): Water Supply and Wastewater (09/13/2019).

Board Certification Status: Active.

Education: ME, Environmental Engineering, National University of Singapore; PhD, Environmental Engineering, University of California.

Other Awards and Honors:

Young Water Professionals Award, International Water Association; Silver Award, 9th Singapore Science and Engineering Fair; Young Researcher Award, National University of Singapore; Humanitarian Water Filtration Design Challenge Award, Singapore International Water Week; Asia Pacific Regional Project Innovation Award, International Water Association; Engineering Researcher Award, National University of Singapore; 1st Prize, International College Green Energy Technology Innovation and Entrepreneurship Competition; Best Student Poster Award, Singapore International Water Week.

Parker, Beth Louise

University of Guelph
Guelph, Ontario
Canada

Board Certification(s): Hazardous Waste Management and Site Remediation (03/30/2020). **Board Certification Status:** Active.

Education: BSC, Environmental Sciences and Economics, Allegheny College; MSc, Civil/Environmental Engineering, Duke University; PhD, Hydrogeology.

Other Awards and Honors:

The John Hem Award, National Groundwater Association; Herbertte Visiting Professorship Award, Universite de Lausanne; The M. King Hubbert Award, National Groundwater Association; Women of Distinction, Guelph YMCA.

Pattarkine, Vikram Madhao

PEACE USA
Mechanicsburg, Pennsylvania
United States

Board Certification(s): Water Supply and Wastewater (02/03/2014).

Board Certification Status: Active.

Education: B.Tech, Chemical Engineering, Nagpur University; M.Tech, Chemical Engineering, Nagpur University; PhD, Civil Engineering.

Sponsoring Organization

Membership: WEF. **Other Awards and Honors:** Alien of Extraordinary Ability, US Citizenship and Immigration Services.

Patterson, James W.

Patterson Env. Consultants, Inc.
Nashville, Tennessee
United States

Board Certification(s): Water Supply and Wastewater (05/04/2006).

Board Certification Status: Active.

Education: BS, Civil Engineering, Auburn University; MS, Sanitary Engineering, Auburn University; PhD, Environmental Engineering.

Sponsoring Organization

Membership: AEESP, AWWA, WEF.

AAEES Awards: Kappe Lecturer.

Other Awards and Honors: Certificate of Appreciation, US EPA; Certificate of Appreciation, NRC; Outstanding Service Award, WEF; Kappe Lecturer, AAEES; Fellow, WEF.

Patwardhan, Avinash Sadashiv

Jacobs
Palm Beach Gardens, Florida
United States

Board Certification(s): Water Supply and Wastewater (09/22/2017).

Board Certification Status: Active.

Education: B.Tech, Agricultural Engineering, MPAU University, India; MS, Agricultural Engineering, University of Manitoba, Canada; PhD, Biosystems/Agricultural Engineering.

Other Awards and Honors: Young Engineer of the Year, National Academy of Engineers; Best Paper Award, AWWA.

Pavlostathis, Spyros G.

Georgia Institute of Technology
Atlanta, Georgia
United States

Board Certification(s): Water Supply and Wastewater (05/04/2006).

Board Certification Status: Active.

Education: Diploma, Agricultural Engineering, Agricultural University of Greece; MS, Environmental Engineering, Cornell University; PhD, Environmental Engineering.

Sponsoring Organization

Membership: AEESP, ASCE, WEF.

AAEES Awards: Frederick G. Pohland Medal.

Peters, Catherine A.

Princeton University
Princeton, New Jersey
United States

Board Certification(s): Environmental Sustainability (03/30/2020). **Board**

Certification Status: Active.

Education: BSE, Chemical Engineering, University of Michigan; MSE, Civil Engineering/Engineering and Public Policy, Carnegie Mellon University; PhD, Civil Engineering/Engineering and Public Policy.

Other Awards and Honors: Alfred Rheinstein Junior Faculty Award, Princeton University; Educator of the Year, New Jersey ASCE; Sustainable Design Project, EPA Award.

Philip, Craig Eliot

Vanderbilt University
Nashville, Tennessee
United States

Board Certification(s): Environmental Sustainability (08/30/2016). **Board**

Certification Status: Active.

Education: BS, Civil Engineering, Princeton University; MS, Civil Engineering, Massachusetts Institute of Technology; PhD, Civil Engineering.

Sponsoring Organization

Membership: ASCE. **Other Awards and Honors:** Public Service Award, Department of Homeland Security USCG; National Achievement Award, National Rivers Hall of Fame; Lifetime Achievement Award, Seamen's Church Institute; Elected to National Academy of Engineering.

Pilko, Victoria

Orange County Sanitation District
Fountain Valley, California
United States

Board Certification(s): Water Supply and Wastewater (08/30/2016).

Board Certification Status: Active.

Education: BSCE, Civil Engineering, St. Petersburg Transport University; MSCE, Civil Engineering, University of Southern California. **Sponsoring**

Organization Membership: AWWA,

WEF. **Other Awards and Honors:** Public Sector Civil Engineer of Merit, ASCE; Outstanding Engineer Merit Award, Orange County Engineering Council.

Pramanik, Amit

One Water Academy
Ellicott City, Maryland
United States

Board Certification(s): Water Supply and Wastewater (11/02/2007).

Board Certification Status: Active.

Education: BTech, Civil Engineering, Indian Institute of Technology; MS, Environmental Engineering, Virginia Tech; PhD, Civil/Environmental Engineering. **Other Awards and**

Honors: Gen. Cult. Scholarship, Malaysian & Indian Government; Soon Eng Kong Gold Medal, Penang, Malaysia; Chi Epsilon, Civil Engineering Society.

Ramaswami, Anu

Princeton University
Princeton, New Jersey
United States

Board Certification(s): Environmental Sustainability (11/12/2021). **Board**

Certification Status: Active.

Education: BT, Chemical Engineering, Indian Institute of Tech, Madras, India; MS, Civil Engineering, Carnegie Mellon University; PhD, Civil & Environmental Engineering. **AAEES Awards:** Science Award.

Rood, Mark J.

University Illinois at Urbana-
Champaign
Urbana, Illinois
United States

Board Certification(s): Air Pollution Control (05/04/2006). **Board**

Certification Status: Active.

Education: BS, Environmental Engineering, Illinois Institute of Technology; MS, Environmental Engineering, University of Washington; PhD, Environmental Engineering.

Sponsoring Organization

Membership: A&WMA, AEESP, ASCE. **AAEES Awards:** Kappe Lecturer.

Saunders, F. Michael

Georgia Institute of Technology
Atlanta, Georgia
United States

Board Certification(s): Water Supply and Wastewater (01/01/1984).

Board Certification Status: Active.

Education: BSCE, Virginia Tech; MS, Virginia Tech, Virginia Tech; PhD, University of Illinois, University of Illinois. **Licensed:** GA. **Sponsoring Organization Membership:** AEESP, ASCE, WEF.

Singh, Udai P.

Moraga, California
United States

Board Certification(s): Hazardous Waste Management and Site Remediation (11/11/2006). **Board Certification Status:** Active.

Education: BS, Civil Engineering, IIT Kanpur, India; MS, Water Resources Engineering, Clemson University; D.Eng., Environmental Engineering.

Sponsoring Organization Membership: ASCE, WEF. **Other Awards and Honors:** Hazardous Waste Management Award, WEF; Outstanding Engineering Manager, ASCE; Golden State Award, CELSOC; Grand Award, ACEC; EWRI, Outstanding Achievement Award; Distinguished Alumnus Award, IIT Kanpur; Service to the Profession Award, EWRI; Industrial Waste Management Award, AAEEES.

Sorial, George A.

University of Cincinnati
Cincinnati, Ohio
United States

Board Certification(s): General Environmental Engineering (07/27/2018). **Board Certification Status:** Active. **Education:** BS, Chemical Engineering, University of Khartoum, Sudan; MS, Chemical Engineering, University of Khartoum, Sudan; Ph.D., Chemical Engineering, University of Bradford.

Sutherland, John W.

Purdue University
W. Lafayette, Indiana
United States

Board Certification(s): Environmental Sustainability (11/10/2012).

Board Certification Status: Active. **Education:** BS, Industrial Engineering, University of Illinois-Urbana-Champaign; MS, Industrial Engineering, University of Illinois-Urbana-Champaign; PhD, Mechanical Engineering. **Other Awards and Honors:** Anderson Consulting Award, UIUC; Distinguished Teaching Award, Michigan Technological University; Outstanding Young Manufacturing Engineer Award; National Science Foundation Career Development Award; Presidential Early Career Award for Scientists and Engineers; SAE Ralph R. Teetor Educational Award; Michigan Technological University Research Award; SME Education Award.

Torrens, Kevin D.

Brown and Caldwell
 Ramsey, New Jersey
 United States

Board Certification(s): Water Supply and Wastewater (04/29/2010).

Board Certification Status:

Active. **Education:**, Environmental Engineering, Western Kentucky University;; Environmental Water Resources Engineering, Vanderbilt University. **Sponsoring Organization Membership:** SWANA, WEF.

Valsaraj, Kalliat T.

Louisiana State University
 Baton Rouge, Louisiana
 United States

Board Certification(s): General Environmental Engineering (03/20/2013). **Board Certification Status:** Active. **Education:** BSc,

Chemistry, Calicut University, India; MSc, Chemistry, Indian Institute of Technology, India; PhD, Chemistry/ Chemical Engineering. **Sponsoring Organization Membership:** AEESP, AIChE. **Other Awards and Honors:** Fellow, American Association for the Advancement of Science; Fellow, American Institute of Chemical Engineers; Roddey Distinguished Professor, Louisiana State University; Fellow, National Academy of Inventors; Fellow, Royal Society of Chemistry.

Viadero, Jr., Roger C.

Western Illinois University
 Macomb, Illinois
 United States

Board Certification(s): Hazardous Waste Management and Site Remediation (09/13/2019). **Board Certification Status:** Active.

Education: MS, Nuclear Engineering, University of Illinois-Urbana; PhD, Civil/Environmental Engineering, West Virginia University. **Sponsoring Organization Membership:** AIChE.

Other Awards and Honors:

Departmental Honors in Physics, Mary Washington College; Research Fellowship, College of Engineering, University of Illinois-Urbana; Excellence in Teaching Award, West Virginia University; J.C. Burchinal Award Outstanding Undergraduate Teaching, West Virginia University; Award for Outstanding Teaching, West Virginia University; Paper Award, Journal of Aquacultural Engineering, Aquacultural Engineering Society; Award for Outstanding Research, West Virginia University; Senior Fellow, Homeland Security Policy Institute, George Washington University Medical Center.

Watts, Robert A.

Chester County Solid Waste Authority
 Narvon, Pennsylvania

ROSTER OF BOARD CERTIFIED ENVIRONMENTAL SCIENTISTS

Introduction.....	438
Alphabetical Listing.....	439

INTRODUCTION

Organization

This Roster of Board Certified Environmental Scientists contains an Alphabetical Listing, which provides a summary professional profile of all Board Certified Environmental Scientists in good standing as of January 31, 2022.

The Academy has included all the recognized specialties of practice covered in its definition of the term “environmental science.” These areas together with the abbreviations used throughout this Roster are listed below:

- Air Resources
- Environmental Biology
- Environmental Chemistry
- Environmental Microbiology
- Environmental Toxicology
- Groundwater and the Subsurface Environment
- Hazardous Waste Management and Site Remediation
- Solid Waste Management
- Surface Water Resources
- Sustainability Science

Titles

All Board Certified Environmental Scientists of the Academy denote their status as a specialty-certified member, they are authorized by the Academy to use the title “Board Certified Environmental Scientist” (BCES).

Typical Alphabetical Listing

Bluestone, Simon

Stantec
Pasadena, California
United States

Board Certification(s): Groundwater and the Subsurface Environment (04/27/2012). **Board Certification**

Status: Active. **Education:** BA, Aquatic Biology, University of California-Santa Barbara; BA, Geological Science, University of California-Santa Barbara; MS, Environmental Management. **Other Awards and Honors:** MWH Project Management Award Recipient (2001, 2002, 2003); MWH President’s Award, Outstanding Management, Southern California Business Unit.

About the Biography

The biographical sketch includes the degrees granted including the name(s) of the granting institution and the date(s) granted; and the date when specialty certification was granted by the Academy. The individual’s membership in Academy sponsor organizations is provided using the acronyms of these organizations. See page 12 for a listing of these organizations and their acronyms. The listing also includes the major engineering and technical awards granted and the acronym or name of the granting institution.

ROSTER OF AAEES MEMBERS

Introduction.....	464
AAEES Member Listing.....	465

INTRODUCTION

In April 2005, the Academy's Board of Trustees expanded membership in the Academy to include all graduate engineers in environmental engineering, environmental science or similar disciplines. In prior years, these persons were known as "Affiliates".

These persons listed in the **Members** section hold degrees in environmental (or related) engineering or environmental (or related) science disciplines, but have not yet met the requirements for Board Certification in one of the Academy's specialties.

AAEES Member

An AAEEES Member is anyone who has a minimum of a baccalaureate degree in environmental (or related) engineering or environmental (or related)

science and is currently practicing in the field or actively engaged in teaching.

Members have the right to vote in Academy Elections and on other issues put to the membership from time to time.

Members may serve on Committees as well as attend any Academy meetings on a local, regional or national level.

The Member **category** is the next step in your life-long career in environmental engineering and science. It is the Academy's sincerest desire that every member will aspire to undergo the process for obtaining Specialty Certification once they have reached the appropriate amount of training and experience.

INTRODUCTION

A Student Member is one who is enrolled in an environmental (or similar) engineering or science program at the Bachelor degree level or Master's Program as a full time student.

The Student Member category is a first step in your life-long career in environmental engineering or environmental science. It is the Academy's sincerest desire that every student will aspire to undergo the process for obtaining Specialty Certification once they have reached the appropriate amount of training and experience. Student membership is extended a year post-graduation to assist you in your journey. Afterwards, you may apply for AAEEES Member.
